GCAPP'S REACH:

248,617 Youth | 146,049 Parents | 109,828 Youth-serving professionals

Key Highlights

- Delivered comprehensive sex ed to **89,000+ students**; expanded quality sex ed to **20 school districts**.
- Conducted **75** trainings to youth serving professionals, strategic partners, and parents.
- Reached **3,000+ parents** with the GCAPP Parent Toolkit, our popular, convenient resource that gives parents and families 24-7 access to critical information, tips, strategies, and conversation starters.
- Served over **2,800 young people** 13-19 years old in our Macon-Bibb teen pregnancy prevention program, Aligning Community Systems for Optimal Adolescent Health.
- Recruited **48 Youth Advisory Council Members**; participated in events, webinars, and activities, reaching over **3,000 peers, parents, and youth-serving professionals and representing 25 counties**.
- Hosted our Annual Sex Ed Summit for youth serving professionals, community partners, and youth which generated over **600** registrations and a record number of participants
- Acquired **2 new federal grants**– Project Eban and Sexual Health for Adolescents Rooted in Equity (SHARE).

GCAPP's work in 2023 secured that it will far exceed its **Impact 2025** goals of reaching

360,000 Youth, **200,000** Parents, **15,000** Youth-Serving Professionals

Expand into **80** counties– more than half of Georgia's 159 counties.

TEEN PREGNANCY PREVENTION

We align programs and strategies and partnering organizations to reduce teen pregnancy rates. Teen births have dropped by 76% since the founding of GCAPP.

YOUTH EMPOWERMENT

We empower youth to avoid risky behaviors that are statistically difficult to overcome and that often negatively impacts adulthood.

COMPREHENSIVE SEX ED

We partner with hundreds of schools and community organizations to provide medically accurate, age-appropriate sex ed to tens of thousands of adolescents each year.

PARENT ENGAGEMENT

We help parents truly be their children's most important educators by providing them with helpful, convenient workshops, tools and resources.

PHYSICAL ACTIVITY & NUTRITION

We integrate health, nutrition, science, and hands-on experiences while promoting physical activity for elementary school students, laying a foundation for a healthy adolescence.
